# READING BINGO

## How to play:

How many squares can you fill in? Do you think you can get a BINGO (5 squares in a row across, up/down or diagonal) or even a BLACKOUT (ALL the squares filled in)?!

If you read (or have read to you) a book that matches what is written in one of the squares, colour that square in or cross it off and see how many you can get! You can use the same book to fill in multiple squares as well.

For even more fun take a photo or a video and submit it in the comments of the Facebook post about this contest ([facebook.com/SligoCountyLibrary](https://facebook.com/SligoCountyLibrary)) or send it in an email to [sligolib@sligococo.ie](mailto:sligolib@sligococo.ie)!

If you complete the Digital Consent Form below you can see your reading challenge photos on our social media platforms!
